

“Heavy Duty” HO Intermodal with Steel Compound Wells

Kato’s **HO Gunderson MAXI-IV well cars**, available in BNSF, TTX, and Pacer paint schemes, are the peak of HO intermodal equipment! Featuring a solid base thanks to their steel-compound wells, these articulated three-unit cars roll solidly and smoothly on your tracks whether operated empty or full.

Take your consist further with Kato’s **53’ Magnetic intermodal containers** - no need for glue or crossed fingers, powerful magnets “snap” the containers into place either to each other or to the MAXI’s wells themselves. Mix and match these containers to create a varied intermodal consist that will look stunning on your home or club layout!

Kato USA’s newest release of Gunderson MAXI-IV well cars are available now at your favorite hobby shop!
