

ES44AC "GEVO" Locomotives Freight's Finest Evolution

New for 2019 - Kato USA is re-releasing the popular N Scale ES44AC "GEVO" locomotive in BNSF, Union Pacific, and Canadian Pacific paint schemes with brand new road numbers! Expand your freight fleets with these reliable runners, now being offered as standard DC (Analog) engines and with **Kato-installed Ready-to-Run DCC and even DCC and Sound via Special Order***

Looking for some rolling stock? The BNSF ES44AC, shipping in June, is a perfect match for the also-available **Bethgon Protein Gondolas**! These specialized cars are used to run high-priority feed trains on the BNSF lines across the Southwestern United States, and will make an excellent complement to modelers' existing intermodal or freight consists!

BNSF "Swoosh" Paint
An ideal matchup for Kato's
Bethgon Protein Gondolas - the BNSF
Runs feed trains all across the Southwestern
United States from the corn mills in Iowa down to Texas!
