

## A PEOPLE-POWERED UNION PACIFIC EXCURSION EXPERIENCE

No other railroad in this country has retained its historical equipment and honored its past like the Union Pacific. Excursion trains, like the 7-car set offered by Kato USA, are made up of finely preserved and maintained heritage cars from the UP's fleet of vintage cars, each one unique and representative of the UP's storied past. This heritage fleet has been used for countless special trains, including the 2019 funeral train which brought president George H.W. Bush to his final resting place, pulled by one of the Union Pacific's numerous special paint SD70ACe locomotives.

The Union Pacific Excursion Train from Kato USA includes 7 unique cars, each one a prototype from the Union Pacific's fleet of heritage cars. Highlites from the set include the Business Car, "Kenefick" (pictured below), the specially painted Museum car (pictured above), and the unique power car which is used to power the train's onboard amenities and has different trucks on both the front and rear.

You can operate the Kato UP Excursion Train with any of Kato's specially painted SD70ACe engines, including the latest release, #1111, the "Powered By Our People" unit, which showcases the diverse catalog of people who make the Union Pacific one of the country's largest and longest running railroads.
