New HO Amtrak® Superliner® cars for 2021 Now Available!

Kato is releasing brand new car numbers for its popular lineup of HO Amtrak equipment! Bearing the modern Phase VI (previously known as IVb) paint scheme, this new release of HO Superliner cars will come with black trucks to represent their most common appearance, and have exciting features like detailed interiors, rotating bearing caps, easy-to-install tail lights, and Kato's signature smooth rolling metal wheels!

You can enjoy these Superliners as-is or go for that extra touch of realism with available pre-installed interior lighting - available by special order. Contact your preferred hobby shop for details!

The Superliner II "Transition Sleeper" crew car is a must-have car for any Amtrak Superliner train - you'll always find one of these specialized cars at the front of the consist, no matter the route or distance!
