

Bi-Level Passenger Car

Included Parts

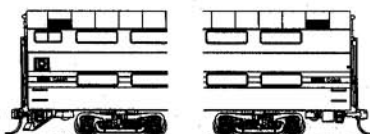

Parts Installation

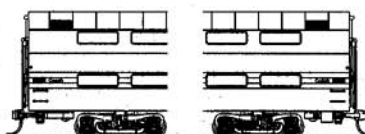

Car Number Application with Dry Transfer Decal

1. Gently clean area where decals are to be applied.
2. Carefully align numbers in proper location (see diagrams below). When aligned, gently rub the area of the carrier paper over the selected numbers with a burnishing tool to transfer the number from the carrier paper to the model. Take care to see that the numbers have transferred completely from the carrier paper to the model.
3. To fix the number, put the paper included, over the transferred number and rub lightly with a burnishing tool.
4. Replace paper backing to the unused portion of the decal sheet when finished to avoid getting dirt on the adhesive surface.

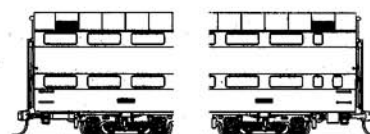

Amtrak Cab Coach

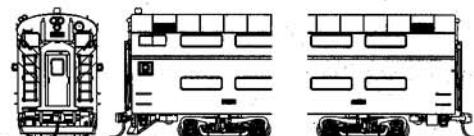

Amtrak 4-Window Coach

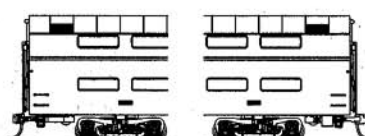

RTA 6-Window Coach

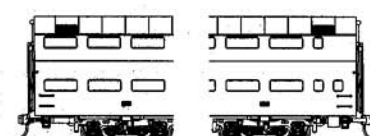

C&NW Cab Coach

C&NW 4-Window Coach

C&NW 6-Window Coach

NOTE : 1. The position on the right side is the same.

2. For correction, put adhesive tape on the number and rub to remove.

COUPLER SET: KATO KINEMATIC COUPLER W/O BOX

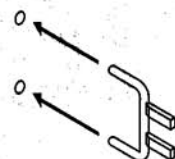

For the operation with coupling a car to the front end of Cab Coach on R430mm (16 7/8") curved track, removing this part is recommended for the extra coupler swing.

■ How to disassemble the bodyshell

1. Detach couplers by removing screws, and remove the coupler.
2. Gently pull sides of body outward, with attention to location of hooks at bottom edge of shell, and lift.
3. Separating the model's components (Bodyshell, Floor part) will make part installation easier.

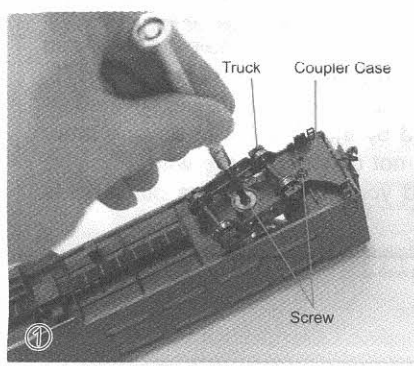

■ Tips

- ① We recommend using a #78 Drill (0.016" or 0.4mm diameter) to make installation of the detail parts easier.
- ② As per the drawing, mount the detail parts with a part of sprue for easy handling. After mounting the parts, cut the sprue with nippers.

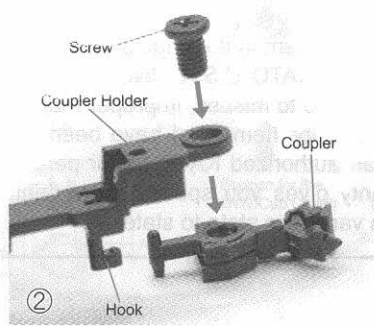

■How to replace with KATO Kinematic Coupler

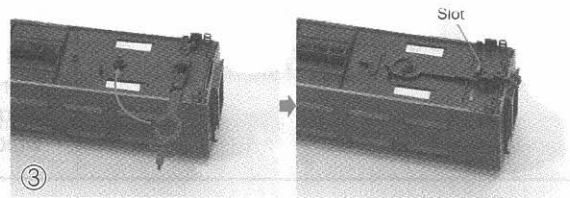

KATO Kinematic Coupler realizes the prototypical close coupling. When using this coupler, coupling and uncoupling is manual operation.

Detach Coupler Cases and Trucks from the floor part by removing each part's screw.

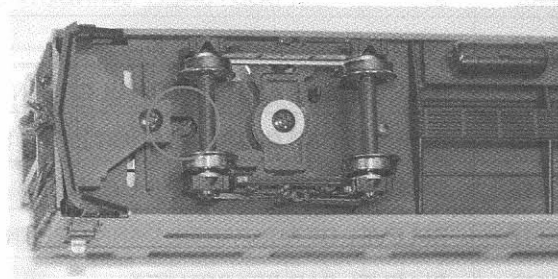

Attach the Coupler to the Coupler Holder with included screw.

Insert the hook on the assembled coupler to the slot under the floor part, and turn the coupler as on the photo. Then reassemble the truck.

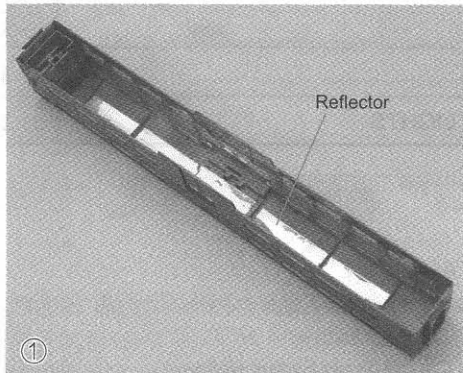

■Headlight/Taillight ON/OFF Switch on Cab Coach

Cab Coach equips Headlight/Taillight ON/OFF Switch under the floor part of front end to make the prototypical appearance when Cab Coach is in the middle of train consist. Using a small flat screwdriver, rotate switch to either on, or off position.

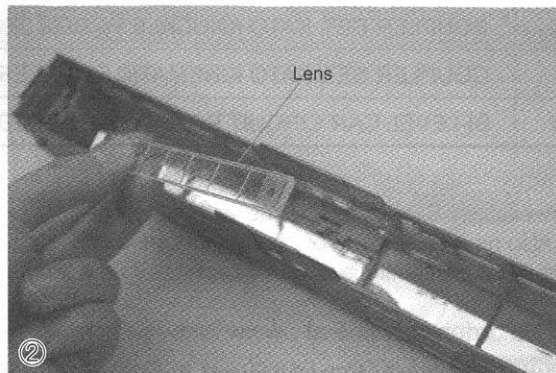

■How to install the Optional Lighting Kit

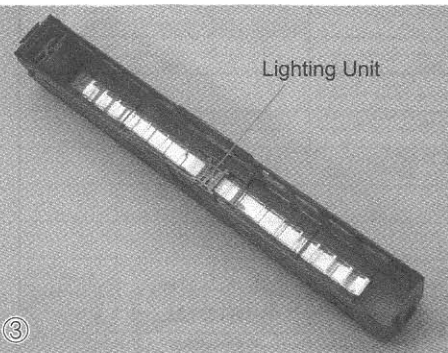

Please read this instruction as well as the instruction sheet for the lighting kit.

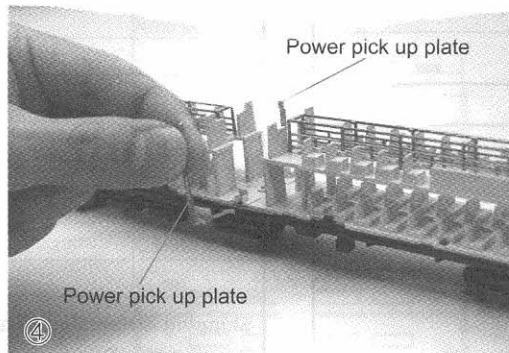

After disassembling the bodyshell and floor part, install the Reflector to the ceiling.

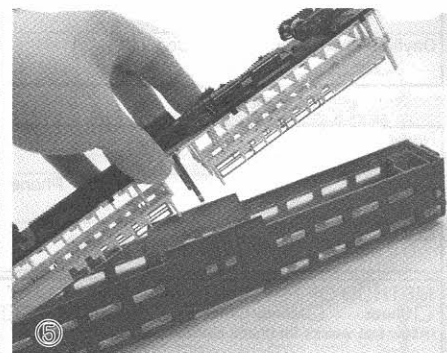

Install the two Lenses to the ceiling.

Install the Lighting Unit as on the photo.

Install the two Power pick up plates as on the photo.

To avoid the light unit's dropping, put the bodyshell upside down when reassembling.

NOTICE:

LIMITED WARRANTY
